Notice No. 01 / SAC / 2017-18

Rajnandgaon, Dated : 24/04/2017

EXPRESSION OF INTEREST (EOI)

(2nd Call)

“Surveying, design, supply, installation, testing and commissioning along with the civil works such as intake structure, intake pipe, sump well overhead pump house, pumping machineries, attendant quarter & anicut protection work including supply and erection of PVC pipe distribution network with micro (drip) irrigation system and three years operation and maintenance of the system for 240 ha. area twice a year of proposed Dhamansara-Mohad Anicut at Shivanth River of Rajnandgaon District.”

The Expression of Interest is hereby invited from the leading firm/organization in India with their past experience for handling similar works/program with Government organization for “Surveying, design, supply, installation, testing and commissioning along with the civil works such as intake structure, intake pipe, sump well overhead pump house, pumping machineries, attendant quarter & anicut protection work including supply and erection of PVC pipe distribution network with micro (drip) irrigation system and three years operation and maintenance of the system for 240 ha. area twice a year of proposed Dhamansara-Mohad Anicut at Shivanth River of Rajnandgaon District.”

Government of Chhattisgarh is interested to develop areas of about 240 ha. to further enhance its irrigation importance by “Surveying, design, supply, installation, testing and commissioning along with the civil works such as intake structure, intake pipe, sump well overhead pump house, pumping machineries, attendant quarter & anicut protection work including supply and erection of PVC pipe distribution network with micro (drip) irrigation system and three years operation and maintenance of the system for 240 ha. area twice a year of proposed Dhamansara-Mohad Anicut at Shivanth River of Rajnandgaon District.” The Expression of Interest (EOI) would be evaluated and shortlist of qualified organization would be prepared. The short-listed organization will be supplied Request for Proposal (RFP) including Terms of Reference (TOR) and will be given adequate opportunity to submit their proposal.

The interested firms/organization should furnish full information about their relevant activities, supported by documentary proof, describing their full time and part-time expert staff, office strength financial turnover for last 5 years.

APPLICATION:

1. Interested agencies have to submit their proposal with non refundable cost of application for as Rs. 5000.00 in the form of D.D. in favour of “**Executive Engineer, Water Resources Division, Rajnandgaon, Chhattisgarh**” through Speed Post/Registered Post A/D to the **Chief Engineer, Mahanadi Godawari Basin, Water Resources Department, Raipur (C.G.)**
 - A. Last Date for Submission of Expression of Interest (EOI) Document **15/05/2017 till 5:30 PM.**
 - B. Date of Opening of Expression of Interest (EOI) Proposal Document **16/05/2017 at 3:30 PM.**
2. Further details regarding the project, can be viewed on sub portal of Water Resources Department, Chhattisgarh website <http://www.cgwrd.in/pressreleases.html> & <http://eproc.cgstate.gov.in> from Date **01/05/2017**
3. If considered necessary, the eligible organizations shall be called for making a Power Point Presentation at short notice.
4. All the right to reject any or all the responses received, without assigning any reason whatsoever and is reserved.
5. Expression of Interest (EOI) submitted personally will not be accepted.
6. Please furnish all information in sequence and as per the prescribed format as provided in page no. 7 of EOI Document, that will be uploaded on date **01/05/2017**

REQUEST FOR PROPOSAL

Selection of reputed firm/agency for Surveying, design, supply, installation, testing and commissioning along with the civil works such as intake structure, intake pipe, sump well, overhead pump house, pumping machineries, attendant quarter, Anicut protection work, including supply and erection of PVC pipe distribution network with Micro (Drip) Irrigation System and three years operation and maintenance of the system for 240 ha. area proposed twice a year at Dhamansara-Mohad Anicut irrigation project on Shivnath River.

Scope of Works to be Carried out :-

1. The Water Resources Department invites an EOI to National specialized firms to present a proposal for the same which if selected can be taken over to implement.
2. The bidder should first make itself well aware of above along with site, so as to produce right kind of solution.
3. Conducting grid survey at an interval of 5.0m including field boundaries of individual farmers, collection of necessary meteorological details, crop details and water source details.
4. The plan/designing is prohibited to make any major changes in existing topography rockery or water channels along with minimal civil construction.
5. Preparation of designs of suitable irrigation systems as per the guidelines of the Department of Water Resources, Chhattisgarh.
6. Preparation of Detailed Cost Estimates for all items and preparation of Detailed Project (DPR) including economical viability of the project.
7. Proposal for drip irrigation system should be planned for approximate area of 240 hectare twice a year.
8. Proposal should be planned for 2 blocks of drip irrigation system on left flank including construction of 2 nos. of approach channel, jack well, intake well, pump house, sufficient storage tank for supply of drip water during failure of power.
9. Proposal should be include sufficient fertilizer and pesticide carrying system for all block of drip irrigation system separately.

10. Installation, testing and commissioning of 2 units on left flank of suitable irrigation system including piping network, drip irrigation systems as per the designs approved by Department of Water Resources, Chhattisgarh.
11. Proposal should include supply and erection of electrification as per required for 2 units of pumping stations including electric poll, wire/cable, transformer etc.
12. Minimum 50% stand by provision should be provided for 2 pumping units.
13. Proposed irrigation area should be protected with wireness fencing as per guideline of the department including 2 nos. gate for each block.
14. During execution of work energy charges will be borne by the Firm / Agency.
15. Operation & Maintenance of Systems for three years, after completion of work.
16. Providing training and awareness to the farmers in the project area including construction of 2 nos. training/community hall with all necessary amenities to full fill approximate 150 persons.
17. Some features highlighting advance farming, educative and depictive nature of projects undertaken by irrigation department may be added.
18. Shaded and semi-shaded areas need to be planned with adequate sitting/storage facilities for each block.
19. The criteria for selection and finalization is solely on discretion of deciding bodies and tenderer has no right or whatsoever to contest the same with any legal standing.
20. The planning should incorporate provisions to tackle existing drain plans and its ornamental designing to improvise waste flow and its merger in Main River.
21. A material supplied such as pipes, machinery, pumps, micro irrigation system (Drip) should confirm to prevailing Indian Standard Specification.

Sincerely
Chief Engineer
Mahanadi Godawari Basin
Water Resources Department, Raipur (C.G.)

SECTION - 2

GENERAL INFORMATION

TO

AGENCY/FIRMS

GENERAL INFORMATION TO AGENCY / FIRM

1. INTRODUCTION :-

GENERAL

- 1.1 The client named in the Data Sheet will select Agency's among those listed in the letter of Invitation, in accordance with the method of selection specified in the Data Sheet and detailed in the edition of the Guidelines indicated in the Data Sheet.
- 1.2 The Agency's are invited to submit a Technical Proposal and a financial proposal, as specified in the Data Sheet for the contracting services required for the assignment named in the Data Sheet. The proposal will be the basis for contract negotiations and ultimately for a signed contract with the selected Agency's.
- 1.3 The assignment shall be implemented in accordance with the phasing indicated in the Data Sheet. The performance of the Agency's under each phase must be the Client's satisfaction before work begins on the next phase.
- 1.4 The Agency's must familiarize themselves with local conditions while preparing their proposals. To obtain firsthand information on the assignment and on the local conditions, Agency's may visit the Client before submitting a proposal and to attend a proposal conference is specified in the Data Sheet. The Agency's representative should contact the officials named in the Data Sheet to arrange for their visit or to obtain additional information.
- 1.5 The Client will assist the Agency's in obtaining licenses, approvals and permits needed to carry out the service.
- 1.6 Please note that (i) the costs of preparing the proposal and of negotiating the contract, including a visit to the Client, are not reimbursable as a direct cost of the assignment; and (ii) the Client is not bound to accept any of the proposals submitted.
- 1.7 Agency's must strictly avoid conflicts with other assignment or their own corporate interests. Agency's shall not be hired for any assignment that would be in conflict with their prior or current obligation to other Clients, or that may place them in a position of not being able to carry out the assignment in the best interest of the Client.

1.7.1 Without limitation on the generality of this rule, Agencies shall not be hired under the circumstances set forth below :

- (a) A firm which has been engaged by the Client to provide goods or works for a project, and any of their affiliates, shall be disqualified from providing consulting services for the same project, Conversely, firm hired to provide consulting services for the preparation or implementation of a project, and any of their affiliates, shall be disqualified from subsequently providing goods or works or service related to the initial assignment (other than a continuation of the firm's earlier services) for the same project.
- (b) Agencies or any of their affiliates shall not be hired for any assignment which by its nature, may be in conflict with another assignment of the Agencies.

1.8 Agencies shall furnish information as described in the Financial Proposal submission form (Section 4A) on commissions and gratuities, if any, paid or to be paid to agents relating to this proposal and to execute the work if the firm is awarded the contract.

2. CLARIFICATION AND AMENDMENT OF RFP DOCUMENTS :-

2.1 Agencies may request a clarification of any of the RFP documents up to fifteen (15) days prior to the Proposal submission date indicated in the Data Sheet. Any request for clarification must be sent in writing to the address indicated in the Data Sheet. The Client will respond in writing and will send written copies of the response including an explanation of the query but without identifying the source of inquiry, to all short listed Agencies should the Client deem it necessary to amend the RFP as a result of a clarification, it shall do so following the procedure under Sub Clause 2.2

2.2 At any time before the submission of Proposals, the Client may, whether at its own initiative, or in response to a clarification requested by a short listed firm amend the RFP by issuing an addendum. The addendum shall be sent to all short listed Agencies and will be binding on them. To give Agencies reasonable time in which to take an amendment into account in their Proposals the Client may at its discretion, if the amendment is substantial, extend the deadline for the RFP submission.

3. PREPARATION OF THE PROPOSAL :-

- 3.1 Agencies Proposal (the proposal will consist of two (2) components.
- (i) The Technical Proposal and
 - (ii) The Financial Proposal
- 3.2 The Proposal, as well as on related correspondence exchanged by the Agencies and the Client, shall be in English. All reports prepared by the contracted Agency shall also be in English. If desired, the Client may ask for the above in Hindi also.
- 3.3 The Proposal should include a cover letter signed by persons(s) with full authorization to make legally binding contractual (including financial) commitments on behalf of the firm. The letter should specify all association arrangements, and certify that each associated firm will perform its designated tasks under the assignment if the lead firm is awarded the contract.
- 3.4 The Technical Proposal should clearly demonstrate the Contactor & understanding of the assignment requirements and capability and approach for carrying out the tasks set forth in the TOR through the nominated experts.

4. TECHNICAL PROPOSAL :-

4.1 Technical Proposal Format :

The Technical Proposal shall provide the following information using the attached standard forms (Section 3)

- (i) A description of the methodology and work plan for performing the assignment (Section 3B)
- (ii) The list of the proposed staff team by specialty the task that would be assigned to each staff team member and their timing. (Section 3C)
- (iii) CVs recently signed by the proposed professional staff and the authorized (Section 3D) Key information should include number of years working for the firm/entity and degree of responsibility held in various assignments during the last ten (10) years.

- (iv) Estimates of the total staff input (Professional and support staff, staff time) needed to carry out the assignment, supported by bar chart diagrams showing the time proposed for each professional staff team member. (Section 3E and 3F)
- (v) Any additional information requested in the Data Sheet.

4.2 The Technical Proposal shall not include any financial information.

5. FINANCIAL PROPOSAL :-

- 5.1 In preparing the Financial Proposal, Agencies are expected to take into account the requirements and conditions outlines in the RFP documents. The Financial Proposal should follow Standard Forms (Section 4). It lists all costs associated with works to be executed (a) Survey, preparation designs and cost estimates and its approvals, (b) Construction of all civil required works, (c) Supply and installation of PVC pipe network and drip irrigation system (d) Supply and erection of Drip Irrigation System, and (e) Operation and maintenance of the system for three years.
- 5.2 The Financial Proposal should clearly estimate, as separate amount, the local taxes (including social security), duties, fees, levies and other charges imposed under the applicable law, on the Agency, the sub-Agency and their personal (other than nationals or permanent residents of the government's country) including service tax and education cess as per law unless the Data Sheet specifies otherwise.
- 5.3 Agency should express the price of their contract work in the Indian Currency only.
- 5.4 Commissions and gratuities, if any, paid or to be paid by Agencies and related to the assignment will be listed in the Financial Proposal submission form (Section 4A).
- 5.5 The Data Sheet indicates how long the proposals must remain valid after the submission date. During this period, the Agency is expected to keep available the professional staff proposed for the assignment. The Client will make its best effort to complete negotiations within this period. If the Client wishes to extend the validity period of the proposals, the Agencies who do not agree have the right not to extend the validity of their proposals.

- 19) The criteria for selection and finalization is solely on discretion of deciding bodies and tenderer has no right or whatsoever to contest the same with any legal standing.
- 20) The planning should incorporate provisions to tackle existing drain plans and its ornamental designing to improvise waste flow and its merger in Main River.
- 21) A material supplied such as pipes, machinery, pumps, micro irrigation system (Drip) should confirm to prevailing Indian Standard Specification.

The Criteria & Weightage :

Sr. No.	PQ Requirement	(Marks)
1	Agencies empanelled with Chhattisgarh State Government and Central Government for supplying and erection of micro irrigation system including laying of pipe line network for irrigation.	5
2	Bidder must be a HDPE / PVC Pipe manufacturer and should be registered as approved Agency atleast in 'A' or 'AA' Class with Irrigation Department and/or PWD in C.G. State.	5
3	The Bidder should have experience of execution of turnkey projects of same nature in the field of piping network and micro irrigation system.	10
4	The HDPE / PVC Pipe manufacturer should be responsible for the jointing of HDPE / PVC Pipes and should be well equipped with the man & machinery required. The Bidder should have experienced technical staff with atleast 5 years' experience in the same nature of works.	10
5	Bidder should be a manufacture of the HDPE / PVC Pipe and Drip components.	10
6	The production capacity of the Bidder should be certified from Ministry of Commerce and Industry.	5
7	Bidder should have experience of execution of turnkey projects in the field of HDPE / PVC Piping network and micro irrigation system.	10
8	Bidder should have executed survey, design, supply and installation of micro irrigation systems covering a total area of 1000 hectares in any three years of last five years which are working satisfactorily.	10
9	Bidder should have experience of installation of HDPE / PVC Piping network for atleast 100 km.	10
10	The bidder should have an experience in the job of maintenance of the micro and piping scheme.	5
11	Skilled technical personals/manpower for the project works.	5
12	The Bidder should have office and depot in Chhattisgarh.	10
13	Methodology and component selection and design of the system.	5

The Bidder must qualify in all the above items and obtain minimum 80% of the marks. A proposal scoring the minimum 80% marks will be deemed to be technically responsive. Others will be rejected and their financial bids will not be opened.

Specifications of Micro (Drip) Irrigation :

The water requirement of crops to be considered is 0.87 LPS / Ha in case of drip irrigation systems, considering available electricity hour 16 hrs / day.

Drip system should be surface Drip irrigation system at 4 feet (1.20 mtr) lateral spacing with PC/NPC inline lateral of 16 mm diameter with 0.60 LPH to 2.40 LPH dripper discharge at every 40 cm dripper spacing.

Drip irrigation system should be design and supply as per GOI and State Govt. guidelines.

PVC for Main and Sub Main pipes should be as per IS-4985 standards.

Trenching and Backfilling of the Main/Sub Main Pipes : Trenching and backfilling of the mainline and sub mainline pipes should be done as per standard practice and as directed by Engineer-in-Charge.

Lateral and Accessories : 1) Plain lateral of 16 mm size of Class 2 as per IS-1286:1989 with latest amendments, 2) Inline lateral of 16 mm size with pressure Compensating or Non pressure Compensating Dripper of 0.60 LPH 2.40 LPH at every 40 cm the spacing of Class 2 as per IS-13488:2008 with latest amendments.

Filtration and Fertigation Unit : 1) Self Cleaning section cleaner filter with required sizes at each block level, 2) Disc Filter of required size at each block level, 3) Fertigation tank of relevant size at each block level.

Valves and Accessories : 1. Air Release Valve as per design requirement, 2. Control valves for the sub main as per design requirement, 3. Flush Valve of the relevant sizes.

Performance Requirements :

1. Drip manufacturer should have empanelment for micro irrigation business in Chhattisgarh.
2. The Drip manufacturers should have valid BSI License for laterals with sufficient experience.
3. The Drip manufacturer should be an ISO-9001, ISO-14001 and ISO-18001 certified company.
4. The Drip manufacture should have in house testing facilities.

List of Codes :

1. Polyethylene pipes for laterals (IS-12786:1989)
2. Emitters (IS-13487:1992)
3. Estimating pipes system (IS-13488:1992)
4. Strainer type filters (IS-12785:1994)
5. Polyethylene micro tubes for drip irrigation system (IS-14482:1997)
6. Media filters (IS-14606:1998)
7. Hydro cyclone separators (IS-14743:1999)
8. PVC pipes for water supply (IS-4985:1999, IS-4985:2000)
9. HDPE pipes confirming to (IS-4984:1995)

6. SUBMISSION, RECEIPT AND OPENING OF PROPOSALS :-

- 6.1 The original proposal (both technical and financial proposals) shall be prepared in indelible ink. It shall contain no interlineations or overwriting except any such corrections as necessary to correct errors made by Agency's themselves. Interlineations or overwriting must be entailed with date by the person(s) who signed the proposal.
- 6.2 An authorized representative of the Agency shall put full signature on all pages of the original hard copy of the financial proposal.
- 6.3 The technical proposal shall be marked "Original" and will be governing.
- 6.4 The original Technical Proposal to be sent to the Client shall be placed in a sealed envelope clearly marked "Technical Proposal".

Similarly, the original Financial Proposal shall be placed in a sealed envelope clearly marked by red felt pen "Financial Proposal" with a warning "Do not open with the Technical Proposal". The envelopes shall be placed into an outer envelope and sealed. The outer envelope shall bear the submission address, reference number and title of the project and other information indicated in the Data Sheet. If the Financial Proposal is not duly submitted by the Agency separate sealed envelope and duly marked as indicated above, this will constitute grounds for declaring both Technical and Financial Proposals non responsive.

- 6.5 Proposals must be delivered at the indicated Client Submission address on or before the time and date stated in the Data Sheet or any new date established by the Client according to provisions of sub clause 2.2

Any notice, request or consent made pursuant to this contract shall be in writing and shall be deemed to have been made when delivered in person to an authorized representative of the party to whom the communication is addressed, or when sent by registered mail. Fax, telegram to such party, at the address specified in the special condition.

1.5 Location :

The work shall be performed at such locations as are specified in Contract and, where the location of a particular task is not so specified. At such locations, where of elsewhere, as the **Engineer-in-Charge** may approve.

1.6 Authorized Representatives :

Any action required or permitted, to be taken and any document required or permitted to be executed under this contract by the **Engineer-in-Charge** or the **Contractor/Agency/Firms** may be taken or executed by the officials specified in the SC.

1.7 Taxes and Duties :

Unless otherwise specified in the SC, the **Contractor/Agency/Firms** and their personnel shall pay such taxes, duties, fees and other impositions as may be levied under the Applicable Law, the amount of which is deemed to have been included in the contract price.

2. Commencement, Completion, Modification and Termination of Contract :-

2.1 Effectiveness of Contract :

This contract shall come into effect on the date the contract is signed by both parties or such other later date as may be stated in the SC.

2.2 Commencement of Work :

The Contractor/Agency/Firms shall carry out the work immediately after the date the contract becomes effective, or at such other date as may be specified in the SC.

2.3 Expiration of Contract :

Unless terminated earlier this contract shall terminate at the end of such time period after the effective date as is specified in the SC.

2.4 Modification :

Modification of the terms and conditions of this contract, including any modification of the scope of the work or of the contract price, may only be made written agreement between the parties.

2.5 Force Majeure :-

2.5.1 Definition :

For the purpose of this contract, Force Majeure means an even which is beyond the reasonably control of a party, and which makes a party's performance or its obligations under the contract impossible or so impractical as to be considered impossible under the circumstances, decision of the Chief Engineer, Mahanadi Godawari Basin Raipur (C.G.) will be final in this regard.

2.5.2 No Breach of Contract :

The failure of a party to fulfill any of its obligations under the Contract shall not be considered to be a breach of or default under this contract, so far as, such inability arises from an even of Force Majeure, provided that the party affected by such an even (a) has taken all reasonable precautions, due care and reasonable alternative measures in order to carry out the terms and conditions of this contract, and (b) has informed the other party as soon as possible about the occurrences of such an event.

2.5.3 Extension of Time :

Any period within which a party shall, pursuant to this contract, complete any action or task, shall be extended for a period equal to the time during which such party was unable to perform such action as result of force majeure.

2.6 Termination :-

2.6.1 By the Engineer-in-Charge :

The **Engineer-in-Charge** may terminate this contract, by not less than thirty (30) days' written notice of termination to the contractor, to be given after the occurrence of any of the events specified in paragraph (a) to (d) of this clause 2.6.1 and sixty (60) days' in the case of the event referred to in (e) :

- (a) If the contractor do not attend to remedy for a failure in the performance of their obligations under the contract within thirty (30) days of receipt after being notified or within such further period as the **Engineer-in-Charge** may have subsequently approved in writing.
- (b) If the contractor become insolvent or bankrupt;
- (c) If, as the result of force majeure, the contractor is unable to execute the specified work for a period of not less than sixty (60) days; or

- (d) If the contractor in the judgment of the **Engineer-in-Charge** has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

For the Purpose of this Clause :

“Corrupt Practice” means the offering, giving, receiving or soliciting of anything of value to influence the action of a public official in the selection process or in contract execution.

“Fraudulent Practice” means a misrepresentation of facts in order to influence a selection process or the execution of a contract to the detriment of the borrower, and includes collusive practice among agency/firms (prior to or after submission of proposals) designed to establish prices at artificial non-competitive levels and to deprive the borrower of the benefits of free and open competition.

- (e) If the **Engineer-in-Charge** in his sole discretion and for any reason whatsoever decided to terminate this contract.

2.6.2 By the Agency / Firms :

The contractor may terminate this contract, by not less than thirty (30) days’ written notice to the **Engineer-in-Charge**. Such notice is to be given after the occurrence of any the events specified as under :-

If, as a result of force majeure, the contractor are unable to perform specified work for a period of not less than sixty (60) days.

2.6.3 Payment upon Termination :

- (a) Upon termination of this contract pursuant to clause 2.6.1 or 2.6.2 the **Engineer-in-Charge** shall make the following payments to contractors;
- (b) Remuneration pursuant for work satisfactorily performed prior to the effective date of termination;

3. Obligations of the Contractors :-

3.1 General :

The contractor shall perform the work and carry out their obligation hereunder with all the due diligence, efficiency and economy, in accordance with generally accepted professional techniques and practices, and shall observe sound management practice, and employ appropriate advanced technology and safe methods. The contractor shall always act, in respect of any matter relating to the contract as faithful advisers to the Engineer-in-Charge, and shall at all time support and safeguard the Engineer-in-Charge legitimate interests of Govt.

3.2 Conflict of Interest :

3.2.1 Contractor Not to Benefit from Commissions Discounts, etc. The remuneration of the contractor shall constitute the Contractor sole remuneration in connection with this contract and the **Engineer-in-Charge** shall not accept for his own benefit and trade commission. Discount or similar payment in connection with activities pursuant to this contract or in the discharge of their obligations under the contract, and the contractor shall use their best efforts to ensure that their personnel, contractor, and agents of either of them, similarly shall not receive any such additional remuneration.

3.2.2 Prohibition of Conflicting Activities :

The Contractor should not involve either directly or indirectly, in any of the following activities –

- (a) During the term of this contract, any business or professional activities in the government's country which would conflict with the activities assigned to them under this contract or
- (b) After the termination of this contract, such other activities as may be specified in the SC.

3.3 Confidentiality :

The Contractor shall not, either during the term or within two (2) years after the expiration of this contract, disclose any proprietary or confidential information relating to the project, the work and this contract, without the prior written consent of the **Engineer-in-Charge**.

3.4 Contractor's Action Requiring Engineer-in-Charge Permission :

The contractor shall obtain the **Engineer-in-Charge** prior approval in writing before taking any of the following action:

- (a) Entering into a subcontract for the performance of any part of the work.
- (b) Any other action that may be specified in the SC.

3.5 Documents Prepared by the Contractor to be the Property of the Engineer-in-Charge :

All plans, drawings, specification, designs reports and other documents and software submitted by the contractor shall become and remain the property of the **Engineer-in-Charge**.

4. Obligations of the Engineer-in-Charge :-

4.1 Assistance and Exemption :

The **Engineer-in-Charge** shall use its best efforts to ensure that the government shall provide the contractor such assistance and exemptions as specified in the SC.

4.2 Change in the Applicable Law :

If, after the date of this contract, there is any change in the applicable law with respect to taxes and duties which increases or decreases the cost of services rendered by the contractor, then the remuneration and reimbursable expenses otherwise payable to the contractor under this contract shall be increased or decreased accordingly by agreement between the parties, and corresponding adjustments shall be made to the ceiling amount referred to in clause 5.2 as the case may be.

5. Payment to the Contractor / Agency / Firm :-

5.1 Lump Sum Remuneration :

The contractor's total remuneration shall not exceed the contract price and shall be a fixed lump sum including all staff costs, sub-contractors costs, printing, communications, travel accommodation, and the like, and all other costs incurred by the contractor in carrying out the work except the contract price may only be increased above the amount stated the parties have agreed to additional payments.

5.2 Contract Price :

The price payable in local currency is set forth in the SC (Special Condition)

5.3 Terms and Conditions of Payment :

Payments will be made to the account of the contractor according to the payment schedule stated in the SC. The extent to the payment schedule stated in the SC. The extent of the payment shall be made to the contractor/agency/firms for the specific work carried out and not as whole as referred to in TOR.

5.3.1 Bill to be Submitted :

A bill shall be submitted by the contractor each month for all work executed in the previous month and the Engineer-in-Charge shall take the requisite measurement, for

the purpose of having the same verified and the claim as far as admissible, adjusted, if possible before the expiry of ten days from the presentation of the bill.

The bill shall be submitted by the contractor per month or as pre progress of work.

However, no claim no account of delay in payment, which might occur due to reasons beyond the control of the department, shall be entertained.

Whereas such delay of payment effecting progress of work thus effecting date of complication of work, is allowed as per actual circumstances.

The detail schedule approved by the **Chief Engineer, Mahanadi Godawari Basin, Raipur (C.G.)** shall form part of the tender. The payment shall be released only as per work done and respective component of work has been completed and/or levels are achieved.

Contractors shall record the joint measurements for work carried out as per procedure laid down by department for purpose of keeping record and same shall be got checked from competent authority before payment. All hidden measurement shall be got 100% checked from the competent authority before payment.

5.3.2 Extension of Time in Consequence of Alterations :

The time for completion of the work shall be extended in the proportion of the altered, additional, or substituted work to the original contract works, and the certificate of the Engineer-in-Charge shall be conclusive as to such proportion.

6. Settlement of Disputes :-

6.1 Amicable Settlement :

The parties shall use their best efforts to settle amicably all disputes arising out of or in connection with this contract or its interpretation.

6.2 Dispute Settlement :

Any dispute between the Parties as to matters arising pursuant to this contract that cannot be settled amicably within thirty (30) days after receipt by one party of the other party's request for such amicable settlement may be submitted by either party for settlement in accordance with the provisions specified in the SC.

6.3 Advance on Plant & Machinery / Mobilization Advance :

[A] (Applicable for Tenders of Rs. 25 Lakhs or more). An advance for plant and Machinery required for the work and brought to site by the contractor shall be given if requested by the contractor. The maximum of such advance shall be 5% of the price of the contract amount. In case of new plant and equipment, the advance shall be limited to 90 percent of the price of such new plant and equipment already paid by the contractor, for which the contractor shall produce satisfactory evidence. In the case of used plant and equipment amount of such advance shall be limited to 50% of the depreciated value of plant and equipment as may be determined by the Superintending Engineer. These advances shall bear 14% interest per annum. These advances shall be further, subject to the condition that such plant equipment are:-

- (a) Considered by the Engineer-in-Charge to be necessary for the works.
- (b) In working order and,
- (c) Hypothecated to the Government, in the form prescribed.

[B] Mobilization Advances :

Mobilization advance not exceeding 5% of contract amount shall be given if requested by the contractor in writing within three month from the date of order to commence the work. In such a case a irrevocably Bank Guarantee from Nationalized Bank for the amount shall be furnished by the contractor before sanction of advance. This advance shall be interest @ 1% above to the current Reserve Bank of India interest rate at the time of payment of advance. The irrevocable Bank Guarantee shall be furnished in the prescribed form appended as “Annexure-L”.

6.3.1 Recovery of Advance :

The recovery of the advances granted under clauses 6.3 shall be made from the running bills in equal installments, equal to the total number of months of the time left for the completion of contract i.e. the advance will be recovered from the first running bill after the issue of advance and shall be fully recovered from the last but one running bill.

7. Escalation Cost :

No escalation will be paid to the contractor.

8. Compensation for Delay :

The time allowed for carrying out work as entered in the tender shall be strictly observed by the contractor and shall be enforced from the date on which the order to commence the work is given to the contractor. The work shall throughout the stipulated period of the contract be proceeded with all due diligence (time being deemed to be the expense of the contract on the part of the contractor) and the contractor shall pay as compensation an amount equal to one percent or such smaller amount as the Executive Engineer/Superintending Engineer/Chief Engineer may decide, on the amount of estimated cost of the work remain uncompleted or unfinished after the proper dates. And further, to ensure good progress during the execution of the work the contractor shall be bound in all cases in which the time allowed for any work **exceeds one month to complete one sixth of the whole of the work before one fifth of the whole time allowed under the contractor has elapsed one fifth of the work before one half of such time has elapsed and three fourth of the work** before three fourth of such time has elapsed. In the event of the contractor failing to comply with this condition he shall be liable to pay as compensation an amount equal to one percent or such smaller amount as the Executive Engineer/Superintending Engineer/Chief Engineer may decide on the said estimated cost of the work whole work for every day that the due quantity of the work remains incomplete provided always that the entire amount of compensation to be paid under the provisions of this clause shall not exceed one percent of the estimated cost of the work as shown in the tender.

The work shall be done usually during the daytime. In the interest of the progress, if it is felt necessary to work during night, the contractor shall obtain specific permission of the Engineer-in-Charge. If the work is to be done at night, prior permission of Engineer-in-Charge should be obtained and adequate lighting arrangement shall be made as directed by the Engineer-in-Charge.

14. NON DRAWL OF AGREEMENT :

In the event of tender withdrawing his/her offer before the expiry of the period of validity of offer or failing to execute the contract agreement, as required by conditions of Tender Document, he/she will not be entitled to tender for this work in case of recall, in addition to forfeiture of his/her earnest money, as per provision of the condition of Tender Document. If the tenderer has committed a similar defaults on an earlier occasion as well, his/her registration in the department may be suspended temporarily for a period of 6 months from such date as may be ordered by the competent authority which had registered him/her.

15. DEFAULT BY THE CONTRACTOR :

If the contractor shall neglect or fails to proceed with works with due diligence or he violated any of the provisions of contract, the Engineer-in-Charge may give the contractor a notice identifying deficiencies in performance and demanding corrective

action. After such notice is given, the contractor shall not remove from the site, any plant, equipment and material. The Government shall have lien on all such plant, equipment and material, from the date of such notice, till the deficiencies have been corrected. If the contractor fails to take satisfactory corrective action within fourteen days after receipt of the notice, the Executive Engineer will terminate the contract in whole or in part, in case the entire contract is terminated, the amount of security deposit together with the value of the work done but not paid for, shall stand forfeited to Government.

The plant equipment and materials held under lien shall then be at the disposal of the Government.

The Executive Engineer may also take possession of the whole or part of the works, site, plant, equipment and materials brought or placed thereon and cause the whole or part of the works, completed by utilizing them through such agencies, at the cost of the contractors. In such cases, the value of the work done through such agencies shall be credited to the contractor at his contract prices. On completion of such work, if the expenses incurred for carrying out such work as certificate by the Executive Engineer are in excess of the value of the work credited to the contractor shall pay the difference to Government. He shall also be liable for the liquidated damages under the contract.

The Executive Engineer may direct that a part or the whole of such plant, equipment and materials are to be removed from the site within a stipulated period.

If the contractor fails to do so, the Executive Engineer may cause them to be sold, holding the net proceeds of such sale to the credit of the contractor. After completion of the work and settlement of the amount the loan by the government on the contractor's plant, equipment and balance of materials shall be released. Termination of the contract either in whole or in part shall be adequate authority for the Executive Engineer to demand discharge of the obligations from the guarantors of the security performance.

APPENDIX – F

MODEL RULES RELATING TO LABOUR WATER SUPPLY AND SANITARY IN LABOUR CAMPS

NOTE :- These model rules are intended primarily for labour camps which are not of a permanent nature. They lay down the minimum desirable standards which should be adhered to standards in permanent or semi permanent labour camps and should not obviously be lower than those for temporary camps.

1. **LOCATION :** The camp should be located in an elevated and well drained ground in the locality.
2. **LAYOUT :** Labour huts to be constructed for one family of 05 persons each. The layout shall be shown in the prescribed sketch.
3. **HUTMENT FACILITY :** The huts to be built of local materials. Each hut should provide atleast 20 Sqm. of living space.
4. **SANITARY FACILITIES :** There shall be provided with latrines and urinals atleast 16 meter away from the nearest quarter separately for men and women, specially so marked on following scale.
5. **LATRINES :** Pit privies at the rate of 10 users for two families per seat, separate urinals are required as the privy can also be used for this purpose.
6. **DRINKING WATER :** Adequate arrangements shall be made for the supply of drinking water. If practicable, filtered and chlorinated supply shall be arranged. Where supply is from intermittent sources, a covered storage tank shall be provided with a capacity of 05 liters per person per day. Where the supply is to be made from a well, it shall conform to the sanitary standards laid down in the report of the Rural Sanitation, Committees. The well should be at least 30 meter away from any latrine or other source of pollution. If possible, hand pump should be installed for drawing the water from the well. The well should be effectively disinfected once every month and the quality of the water should be got tested at the Public Health Institution between each work of disinfection.

Washing and bathing should be strictly prohibited at places where water supply is from a river. The daily supply must be disinfected in the storage reservoirs and given atleast 3 minutes contact with disinfectant before it is drawn for use.

7. **BATHING AND WASHING :** Separate bathing and washing place shall be provided for men and women for every 25 persons in the camp. There shall be gap and space of 02 Sqm. Of washing and bathing. Proper drainage for the water should be provided.
8. **WASTE DISPOSAL :** Dustbins shall be provided at suitable places in camp and the residents shall be directed to throw all rubbish into these dustbins shall be provided with covers. The contents shall be removed every day and disposed of by trenching.
9. **MEDICAL FACILITIES :**
 - a) Every camp where 1000 or more persons reside shall be provided with whole time Doctor and Dispensary. If there are women in the camp, a whole time Nurse shall be employed.
 - b) Every camp where less than 1000 but more than 250 persons reside shall be provided with a Dispensary and a part time Nurse / Midwife shall also is employed.
 - c) If there are less than 250 persons in any camp, a standard first aid kit shall be maintained in charge of the whole time person, trained in first aid. All the medical facilities mentioned above should be for all residents in the camp, including the dependent of the workers, if any, free of cost.
10. **SANITARY STAFF :** For each labour camp there should be qualified Sanitary Inspector and Sweepers, Sweepers should be provided on following scale :-
 - a) For camps with strength over 200 but not exceeding 500 persons - One sweeper for every 75 persons above the first 200 for which three sweepers be provided.
 - b) For camps with strength over 500 persons - One sweeper for every 100 persons above the first 500 persons for which six sweepers should be provided.

APPENDIX – G
